ABOUT ECOTENT®

Brand new, fresh and dynamic. Ecotent® is a new brand of Zingerle Group and benefits from years of experience in the production of high quality pop up gazebos sold by the company for over 30 years under the brand called Mastertent®. With Ecotent®, Zingerle Group now offers solid pop up gazebos at an attractive price which can be used for a wide variety of applications anytime and anywhere.

Made in Europe: We produce all our pop up gazebos ourselves. At our two production sites in Italy and Romania, our long-time employees work diligently to fulfil your wish of your personal gazebo.

HERE, THERE, ANYWHERE

No matter where you are, we are always at your disposal and happy to help you with your decision. Our employees know our products and the needs of our customers best and can therefore help you find the right solution.

If you decide to acquire one of our products, our experts will be there for you also after the purchase - we promise.

Experience and professionalism

Customer proximity

Top price performance

QUICK AND EASY - NO MATTER WHERE

SET-UP IN ONLY 2 MINUTES

IS IT REALLY THAT FAST?

Yes! Thanks to our many years of experience and a sophisticated technology, our pop up gazebos can be set up in no time and without any tools. Two people and only a few seconds are enough!

GOOD TIMES.

OXFORD FABRICS

Oxford is a very high quality polyester fabric. We use Oxford 500D and Oxford 250D for our pop up gazebos. The latter is slightly thinner, but just as waterproof, fire-retardant and windproof as the former. In addition, this textile protects against UV rays and is extremely durable. You see, under our pop up gazebos you will be well protected.

Black

Our Oxford textile complies with the European Standard EN 13501-1.

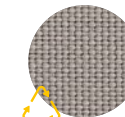

RECYCLING FABRIC

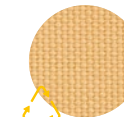

This 100 % recycled polyester fabric is made from old PET bottles. This helps us reduce large amounts of plastic waste that would otherwise end up in landfills or the ocean. So if you want to do something good for the environment, this fabric is the right choice. Choose one of these three warm, elegant colours - you'll love them!

FOR MORE INDIVIDUALITY

FANCY PRINTING

SOMETHING SMALL... THERMAL PRINTING

You would like to print your logo, your motto or a snappy saying on your pop up gazebo? Then thermal printing is the best choice: By means of heat transfer, a very durable vinyl film is printed onto the textile.

...OR SOMETHING BIG SUBLIMATION PRINTING

Thanks to this printing technique, we are able to print full-surface motifs in photo quality on the textile. Let your imagination run wild!

PRINTING

OUR GRAPHICS TEAM

Create something unique with your personal printing!

No matter what ideas are floating around in your head, our graphics team will realise them together with you and create a unique pop up gazebo!

Personalisation

Creative ideas

SIDEWALLS OF YOUR CHOICE

Our sidewalls can be flexibly attached to your pop up gazebo and serve as sun, rain or wind protection, depending on the weather. Whether closed, with door, with window or at half height, they can also perform the function of an eye-catching advertising space. Did you know that by mounting sidewalls, you automatically give your pop up gazebo more stability? Find the sidewall that best serves your purpose and get started!

SIDEWALLS WITH VELCRO LOOPS

The mounting of our sidewalls is very simple and fast: By means of a strong Velcro strip they are attached to the roof and with Velcro loops to the tent leg - but there is more... just keep on reading!

FOR ABSOLUTE WIND RESISTANCE

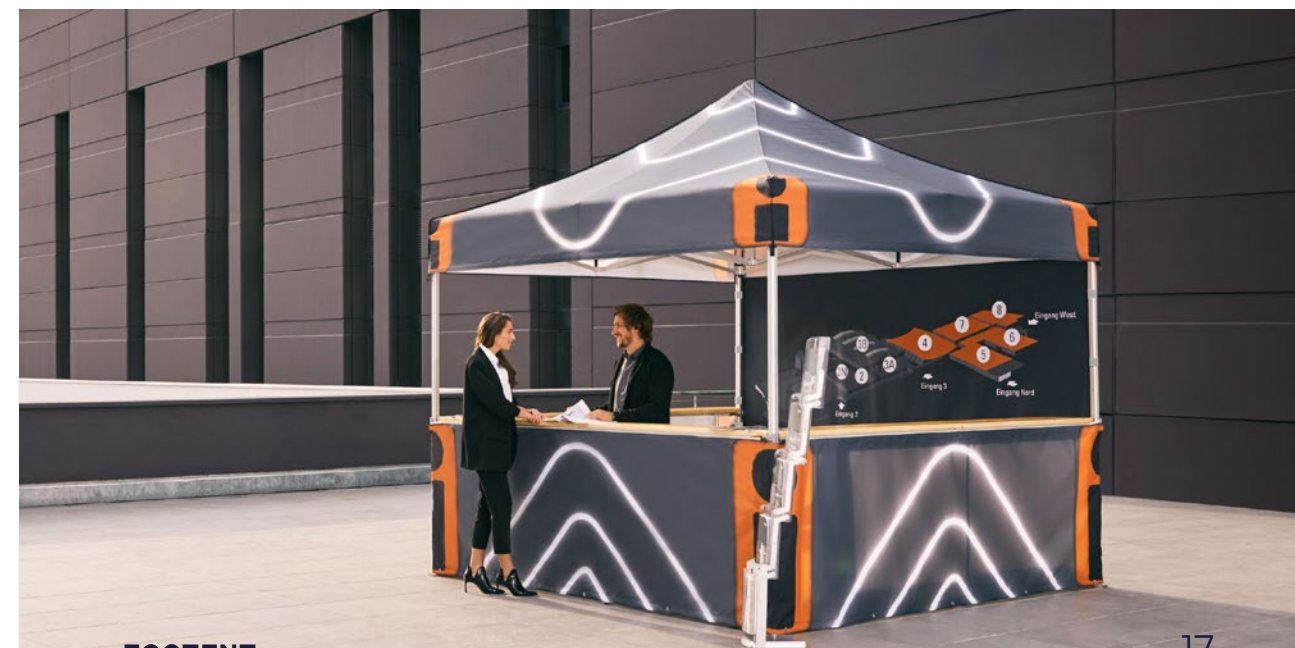

SIDEWALLS WITH ZIPPER

For even more stability and protection from the wind, use our sidewalls, which can be connected and closed with a zip in addition to the Velcro loops. The best thing is: the zip is not visible and seamless printing is possible. In addition, all sidewalls have a PVC reinforcement at the bottom edge that protects them from dirt. With this, really nothing can go wrong and you can be sure that everything and everyone is perfectly protected.

Windproof

ENJOY THE MOMENT.

USEFUL ACCESSORIES

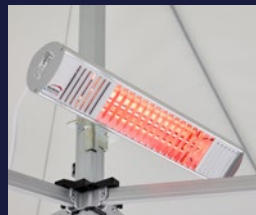

You feel that something is missing and your pop up gazebo is not complete yet? Equip it with accessories that will always and everywhere support you.

TECHNICAL KNOW-HOW

More than 30 years of practical experience, extensive know-how and innovative spirit is embodied in every single pop up gazebo.

RUBBER CAPS AND TRANSPORT PROTECTION

Why should a pop up gazebo have them? The rubber caps on the aluminium connectors protect the roof during use. They also prevent friction and absorb shocks when transporting the gazebo.

GROOVED ALUMINIUM PROFILE

High stability with low weight. Aluminium is lightweight, but that doesn't mean it's not strong! The ribbed, square profile gives your pop up gazebo great stability.

EASY SET-UP MECHANISM

Our easy set-up mechanism consists in a spring bolt integrated in the profile, which makes it easier to set up the pop up gazebo. Simply press it and the tent leg can be extended without effort.

VELCRO FASTENERS

Additional adjustable Velcro fasteners at the corners ensure an evenly stretched roof. The advantages? Your logo is always clearly visible, the water has no chance to accumulate on the roof and the appearance of your pop up gazebo is always professional.

PUSH BUTTON

What is this red button for? It helps you to fold up the pop up gazebo after its use. The corner slider will unlock when pressing it lightly and the tent will close - you won't jam your fingers.

PLASTIC SLIDERS

Against scratches and for an easy operation. All moving parts of the aluminium structure are surrounded by plastic sliders which counteract friction and give you more fun during the assembly and disassembly of your gazebo!

FOOT PLATE

The rectangular base plates of our pop up gazebos, which are made of either galvanized steel or aluminium (depending on the series), allow the pop up gazebo to stand firmly on the ground, regardless of the surface.

COLOURED VELCRO STRAPS

Get an E1 or E2 pop up gazebo and we will match the Velcro colour to the colour of the roof. A visual detail that is often underestimated.

30 YEARS OF PRACTICAL EXPERIENCE, EXTENSIVE KNOW-HOW AND INNOVATIVE SPIRIT.

A man with grey hair, wearing a dark blue hoodie and black gloves, is focused on working with a stack of white metal frames in a factory. He is using a tool to adjust or assemble the frames. The background shows industrial equipment and shelves, with a green wall and overhead lights. The text '100% MADE IN EUROPE' is overlaid in large, bold, pink letters on the right side of the image.

COVERAGES FOR YOUR POP UP GAZEBO

Storms, fallen trees, fires and floods - people all over the world are experiencing such events all the time. And when Mother Nature goes crazy, even the strongest and most robust pop up gazebos are at her mercy.

That's why we offer you CARE and CARE+, two risk provisions that you can claim against in the event of damage caused by force majeure.

CARE & CARE+

WHAT THEY HAVE IN COMMON

- you save high repair costs
- you receive one free repair kit for the tent roof per year
- you benefit from prioritised customer support and
- fast delivery of the replacement part

THE DIFFERENCES

CARE

you save 70 % on the purchase of a new roof

unlimited roof replacement

one-off, low service fee (per contract term) regardless of how often the roof needs to be replaced

CARE+

70% discount on all parts that need to be replaced

unlimited replacement of the roof, as well as the aluminium structure and all its individual parts

one-off, low service fee (per contract term), regardless of how often the roof, the aluminium structure or its individual parts need to be replaced

FOR YOUR PROTECTION - AND THAT OF THE ENVIRONMENT

WARRANTY SERVICES

- 5 years manufacturer's warranty on material and production defects of the aluminium structure.
- 10 years availability of all spare parts of the aluminium structure.
- Lifetime warranty against corrosion of the aluminium structure.*

* special cases excluded (e.g. frequent use of the pop up gazebo near the sea).

Warranties

CERTIFICATIONS

- All pop up gazebos are TÜV certified (product certification).
- The tent fabric complies with EU Standard EN 13501 - 1:2018 and is therefore fire-retardant.
- The tent fabric has been successfully tested for tensile strength, waterproofness and colour fastness according to applicable ISO criteria.
- The pop up gazebos have been tested by a renowned specialist institute in the wind tunnel for their stability in various wind forces.
- The pop up gazebos have undergone a static calculation by engineers and do not require approval by structural engineers or authorities according to the UNI EN 13782 Standard.
- We have the ECO Passport for the ink used in the printing of our tent fabrics.
- All materials for the production of our pop up gazebos are REACH compliant.

Certified

"SUSTAINABILITY IS NOT A GOAL, BUT A MINDSET THAT WE INTEGRATE INTO OUR EVERYDAY ACTIONS."

CEO - Georg Zingerle

SUSTAINABLE DEVELOPMENT

As a manufacturing company, we are aware that we influence the environment through our actions. That's why we offer sustainable products like our Eco fabric, we sew cool shopping bags from the fabric scraps of our pop up gazebos and our company building is 100 % powered by solar energy.

However, there is more behind our sustainability concept, because we want to contribute not only to the well-being of our environment, but also to that of our fellow citizens.

ENTHUSIASTIC CUSTOMERS ARE OUR INSPIRATION.

» I AM VERY SATISFIED WITH MY POP UP GAZEBO. IT IS ROBUST, DURABLE AND EASY TO SET UP AND TAKE DOWN. «

Norman R. - Pizza Party Ni
